

WORKSHOP ON CYBER SECURITY

Jalandhar: Apeejay Institute of Management and Engineering Technical Campus organised a workshop on 'Innovations in Cyber Security and Ethical Hacking'. The workshop was organised to equip students with tools and techniques used by ethical hackers and information security professionals to secure their organisations against any attack. The workshop provided hands-on environment with a systematic ethical hacking techniques. Surmeet Singh (cyber security expert) discussed on penetration testing tools and also discussed various security techniques used by Facebook to protect user data. Some live hacking sessions on making safe use of debit/credit and other smart cards were given to the students. He also discussed the vulnerabilities of wi-fi enabled debit and credit cards in NFC enabled devices.
