**Jalandhar:** The Apeejay Institute of Management and Engineering Technical Campus organised a workshop for career guidance facilitators of various educational institutions. Around 50 participants from 15 educational institutes of Jalandhar and Phagwara attended the workshop. Kanika Chopra, assistant professor in business communications, coordinated the event and welcomed the educators. She elaborated on instructional styles and strategies, pedagogical tools, teaching methodologies that could be employed to make learning conducive for students. Citing examples of pedagogical tools such as teaching through cases, field visits, industrial trips, Chopra explained how to nurture creativity and innovative instincts of students. She also highlighted the significance of providing opportunities to students to showcase their co-curricular acumen as these helped in comprehensive development of students.
